ABOUT US

LOYOLA MARYMOUNT UNIVERSITY

LMU is a private Catholic university with 6,250 undergraduates, 2,150 graduate students and 1,100 law students from diverse backgrounds and many perspectives. Our seven colleges and schools boast best-in-the-nation programs in film and television, business, education and more. Our stunning campus in West Los Angeles is a sun-soaked oasis overlooking the Pacific coast and a model of sustainability. We're rooted in the heart of Los Angeles, a global capital for arts and entertainment, innovation and technology, business and entrepreneurship. Our mission is grounded in a centuries-old Jesuit educational tradition that produces extraordinary men and women dedicated to service and social justice. We're proud of more than 92,000 LMU alumni whose professional achievements are matched by a deep commitment to improving the lives of others. For more LMU news and events, please visit www.lmu.edu/news.

The Thomas and Dorothy Leavey Center for the Study of Los Angeles (StudyLA) at Loyola Marymount University is one of the leading undergraduate research centers in the nation. We are a respected leader in public opinion surveys, exit polling, and leadership and community studies. Founded in 1996, StudyLA conducts groundbreaking research through its LA Votes exit poll project, LA Riots Anniversary Studies, and LA Public Opinion and Leaders Surveys. We provide rigorous, mentored research experiences for undergraduate students at Loyola Marymount University with an emphasis on hands-on field research. As the preamble to the LMU mission states, "We benefit from our location in Los Angeles, a dynamic city that brings into sharp focus the issues of our time and provides an ideal context for study, research, creative work, and active engagement. We invite men and women diverse in talents, interests, and cultural backgrounds to enrich our educational community." StudyLA brings this mission alive, taking pride in our work's emphasis on understanding and communicating the issues of our time.

For more information about the results or methodology from this or other datasets from the Center for the Study of Los Angeles, please contact Brianne Gilbert, Associate Director, at brianne.gilbert@lmu.edu.

ABOUT THIS STUDY

The 2020 Presidential Primary Election Exit Poll asked LA County voters about whom they voted for in the Presidential and District Attorney Races, how they voted on various measures, their overall voting experience at their respective vote centers, and what their opinions were on a few questions. The following data brief reports on questions related to public opinion on changes in race relations over the past four years. The data brief consists of two sections: (1) topline for the questions, and (2) crosstabs, or each question crossed by respondent demographics.

RECOMMENDED CITATION

Guerra, Fernando J.; Gilbert, Brianne; Dunsker, Max; & Vizireanu, Mariya. (2020). Race Relations Data Brief: 2020 LA Votes Presidential Primary Exit Poll. Thomas and Dorothy Leavey Center for the Study of Los Angeles, Loyola Marymount University, Los Angeles, California.

QUESTIONS INCLUDED IN THIS DATA BRIEF

Over the past four years, are race relations: better/about the same/worse? In your neighborhood | In Los Angeles | In the United States

TOPLINES

Over the past four years, are race relations:

| | Better | About the same | Worse |
|----------------------|--------|----------------|-------|
| In your neighborhood | 21.5 | 68.4 | 10.1 |
| In LA | 15.6 | 57.2 | 27.2 |
| In the US | 10.5 | 25.3 | 64.2 |

Note: Note: Sub-question rows total 100 percent.

Appendix

2020 PRESIDENTIAL PRIMARY ELECTION EXIT POLL

METHODOLOGY

As Los Angeles continues to change and grow, accurate exit polling becomes a vital tool for understanding, developing theory on, and improving voter experience, behavior, preferences, and opinions. Los Angeles Votes is a series of exit polls and vote center studies in Los Angeles known for the use of a breakthrough sampling methodology – the racially stratified homogenous precinct approach – and becoming the largest per-capita exit poll in the nation. Since 2005, StudyLA has conducted sixteen projects, resulting in some of the most accurate exit polling results of every major election in Los Angeles.

LA Votes began as a response to exit poll discrepancies in the 2000 and 2004 presidential elections. Ethnic breakdowns from exit polls conducted during these elections skewed Latino voters towards the Republican candidate while no other data supported this trend. StudyLA researchers designed the racially stratified homogenous precinct approach to address this sampling anomaly and more accurately reflect ethnic voting patterns discovered by exit polls. In contrast to conventional sampling methodologies, the racially stratified homogenous precinct approach places an emphasis on location when it comes to racial and ethnic voting patterns. Voting patterns of a racial or ethnic group living within a racial or ethnic enclave are different from voting patterns of a racial or ethnic group living within a racial or ethnic enclave dissimilar to their own.

The 2020 Presidential Primary Election Exit Poll asked voters about whom they voted for in the Presidential and District Attorney Races, how they voted on various measures, and their overall voting experience at their respective vote centers. In addition, voters were asked about various civic concerns. They were also asked for general demographic information such as race/ethnicity, political ideology, education, income, employment status, etc.

VOTE CENTER SELECTION

Field researchers collected surveys at 50 vote centers located in Los Angeles County. Twenty-five vote centers were selected via the racially stratified homogenous precinct approach, while the remaining 25 were selected randomly. Geographic location matching for the racially stratified homogenous precinct approach used the most recently available population figures from the American Community Survey (ACS) estimates. This sampling methodology results in five vote centers of each racial/ethnic category in Los Angeles County: white, African American, Latino, Asian American, and mixed precincts.

SAMPLING

This study is only of at-poll voters. Field researchers were instructed to ask every other person who exited the vote center to participate in the survey either in English or Spanish. Researchers collected surveys from 7am till 8pm (if no voters were left in line) or 9pm (if there were still voters in line after 8pm).

DATA COLLECTION

The 2020 Presidential Primary Election Exit Poll was conducted on March 3, 2020. More than 250 LMU students served as field researchers, distributing surveys in both English and Spanish from 7:00am to 8:00pm at 50 randomly selected vote centers in Los Angeles County.

REPORTING DATA

The margin of error for the entire sample is $\pm 2\%$. Responses collected from the 25 racially stratified locations are weighted based on respondent self-identified racial/ethnic group, gender, age, and political party, matching them to the most recently available population parameters and voting demographic estimates. All numbers represent percentages, unless otherwise indicated. Due to rounding and multiple response questions, not all rows or columns total 100%.

SURVEY APPROVAL

Approval to begin survey administration was granted from the Institutional Review Board at Loyola Marymount University.

DEMOGRAPHICS

With which political party are you currently registered?

| | Unweighted frequencies | Weighted percentages |
|------------------------|------------------------|----------------------|
| Democratic | 2,652 | 64.8 |
| Republican | 362 | 13.3 |
| Decline to state/other | 421 | 21.9 |
