Activity 7.2: Reflection

Think about your experience implementing an action plan that your class designed. Answer the following questions to independently reflect on the process and outcomes of an action plan.

Reflection Questions:

1. What was the goal of your action plan? In what ways did your class accomplished your goal? In what ways did your class miss your goal?

2. Did anything surprise you about implementing the action plan? What was the most challenging aspect? What was the most rewarding?

3. If you were to do your action plan again, what would you change? Why?

4. Why was it important to plan ahead before beginning the work on your action plan? Did your action plan change as you worked?

5. What did you learn from planning and doing your environmental action plan that can help you in other classes in school? In your everyday life?
