## ABOUT US

### LOYOLA MARYMOUNT UNIVERSITY

LMU is a private Catholic university with 6,000 undergraduates, 2,200 graduate students and 1,100 law students from diverse backgrounds and many perspectives. Our seven colleges and schools boast best-in-the-nation programs in film and television, business, education and more. Our stunning campus in West Los Angeles is a sun-soaked oasis overlooking the Pacific coast and a model of sustainability. We're rooted in the heart of Los Angeles, a global capital for arts and entertainment, innovation and technology, business and entrepreneurship. Our mission is grounded in a centuries-old Jesuit educational tradition that produces extraordinary men and women dedicated to service and social justice. We're proud of more than 85,000 LMU alumni whose professional achievements are matched by a deep commitment to improving the lives of others.

For more LMU news and events, please visit [www.lmu.edu/news](http://www.lmu.edu/news).

### CENTER FOR THE STUDY OF LOS ANGELES

The Thomas and Dorothy Leavey Center for the Study of Los Angeles (StudyLA) at Loyola Marymount University is one of the leading undergraduate research centers in the nation. We are a respected leader in public opinion surveys, exit polling, and leadership and community studies. Founded in 1996, StudyLA conducts groundbreaking research through its LA Votes exit poll project, LA Riots Anniversary Studies, and LA Region Public Opinion and Leaders Surveys. We provide rigorous, mentored research experiences for undergraduate students at Loyola Marymount University with an emphasis on hands-on field research. As the preamble to the LMU mission states, "We benefit from our location in Los Angeles, a dynamic city that brings into sharp focus the issues of our time and provides an ideal context for study, research, creative work, and active engagement. We invite men and women diverse in talents, interests, and cultural backgrounds to enrich our educational community." StudyLA brings this mission alive, taking pride in our work's emphasis on understanding and communicating the issues of our time.

For more information about the results or methodology from this or other datasets from the Center for the Study of Los Angeles, please contact Brianne Gilbert, Associate Director, at [brianne.gilbert@lmu.edu](mailto:brianne.gilbert@lmu.edu).

## LOS ANGELES LOVES A WINNER

In 2017, LA bleeds Dodger Blue. Although some might make a strong case that Los Angeles has been a blue city for decades, this is the first year of the LA Public Opinion Survey that Angelenos' preference for the Dodgers has overtaken their love for the Lakers. For four years, StudyLA has asked Angelenos which professional team is their favorite out of those with "LA" in their name. For three straight years, the Lakers have come out on top. However, that percentage has dropped steadily as their inability to make the playoffs has taken a toll on fan loyalty. In 2017, for the first time the Dodgers eked out the Lakers for the top spot in our survey, with 36% of residents ranking them as their favorite professional sports team with LA in their name. The Lakers took a backseat with 35%, while the Clippers ranked a distant third with only 7%. This year, for the first time we also asked about the newest team to play in LA; the Los Angeles Rams garnered 5% of Angelenos' top support.

## Toplines

Which is your favorite professional team with LA in its name?

	2014	2015	2016	2017
Lakers	42.9	39.5	37.4	35.5
Clippers	6.7	7.0	8.6	7.2
Dodgers	33.8	31.1	35.0	35.7
Angels	4.3	4.6	4.8	5.9
Galaxy	3.7	8.4	5.8	5.3
Chivas *	2.7	1.9	0.0	0.0
Kings	5.2	7.0	7.8	5.7
Sparks	0.8	0.6	0.6	0.2
Rams *	0.0	0.0	0.0	4.5
<b>Total</b>	100.0	100.0	100.0	100.0

\*The Chivas played its final season in 2014, but the option was kept on the survey in 2015 as a memorial to the team. The Rams were added to the question choices this year.

## *Appendix*

## 2017 PUBLIC OPINION SURVEY METHODOLOGY

As part of Forecast LA's unique approach to forecasting in the Los Angeles region, the Center for the Study of Los Angeles conducted an outlook survey. The Los Angeles Public Opinion Survey involved 20-minute telephone sessions and online surveys with more than 2,400 adults (1,800 phone and 600 online) living in Los Angeles County. Survey respondents were asked about quality-of-life perceptions, personal economic wellbeing, economic concerns, overall life satisfaction, and various civic issues.

**Los Angeles Public Opinion Survey Sampling** Since the primary purpose of this study was to gather representative input from adult residents within

the Los Angeles region, an initial random digit dial (RDD) sample was employed. The RDD sample was drawn by determining the active phone exchanges (the first three numbers of a seven-digit phone number) and blocks with a given sampling area (in this case, by the zip codes that comprise the county). A random list of all active residential and cell phone numbers in the area was produced. This method included both listed and unlisted phone numbers. Listed samples were used to meet particular quotas for racial/ethnic categories and geographic location.

The online portion was comprised of responses from double opt-in respondents who have agreed to participate in surveys. Real-time sampling and survey publishing services were also used to target respondents outside of the initial reach. Finally, listed samples were used to fill gaps within racial/ethnic and geographic quotas. For all methods, adult respondents in LA County were targeted and then randomly selected within their group.

### SCREENERS

The protocol for this study involved asking potential respondents a series of questions, referred to as screeners, which were used to ensure that the person lived within the county and was at least 18 years old. The target sample size was 1,200 residents from the city of Los Angeles and 1,200 residents from Los Angeles County who live outside the city of LA. The first quota was a random digit dialing of approximately 750 residents (with 66% cell phone). The online survey ran concurrently with a target sample size of 600 respondents. The remaining racial/ethnic and geographic quotas were determined based on the fallout: 400 African American residents, 600 Asian residents, 400 residents from the San Fernando Valley (only within the city of Los Angeles) and 400 residents from the San Gabriel Valley. Given the demographic proportion of Latino and white residents in the region, as expected, both groups naturally fell out from the initial wave of online and phone respondents.

### DATA COLLECTION

Telephone surveys were conducted the first four full weeks in January 2017 and first two weeks in February between the hours of 4:30pm and 9pm during the week, 10am to 4pm on Saturday, and 10am to 5pm on Sunday. The survey was translated into Spanish, Mandarin, and Korean. Translators who spoke Spanish, Mandarin, and Korean were available to conduct interviews for residents who only spoke, or were more comfortable speaking any of those languages. The online survey ran from January 13 to January 26 and was available in English and Spanish.

The margin of error is  $\pm 3.0\%$  for the entire sample of 2,404 residents.

## Demographics

Language survey was administered in.

	Unweighted frequencies	Weighted percentages
Survey taken in English	1,870	79.9
Survey taken in Spanish	234	13.2

## SURVEY FUNDING

As with all research projects at StudyLA, funding for this project came from a variety of donors (including the university's own internal funds) throughout the year. Donors are not involved in any aspect of project design and data dissemination. All StudyLA funders are aware that their donations can be applied to any one of the numerous research projects StudyLA conducts. To find out more about StudyLA's funders visit [www.lmu.edu/studyLA](http://www.lmu.edu/studyLA).
