Annotated Bib

By: Daria Bianchini

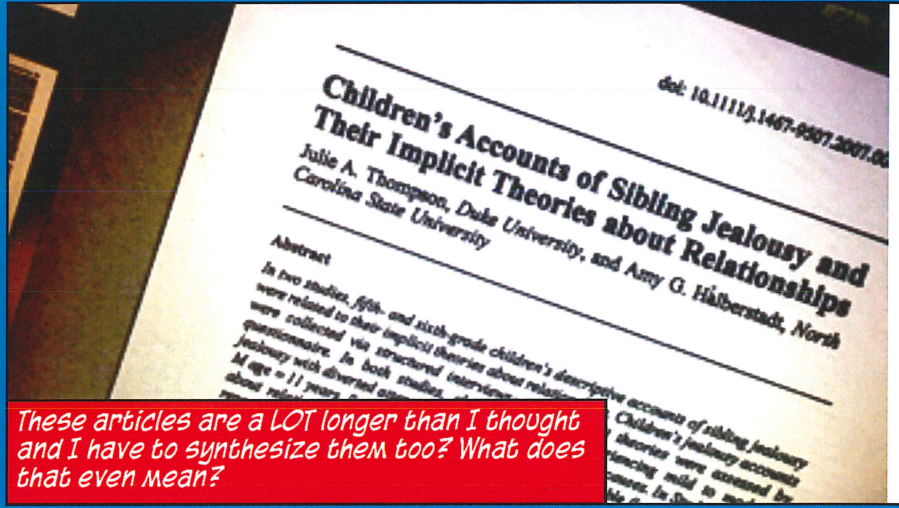

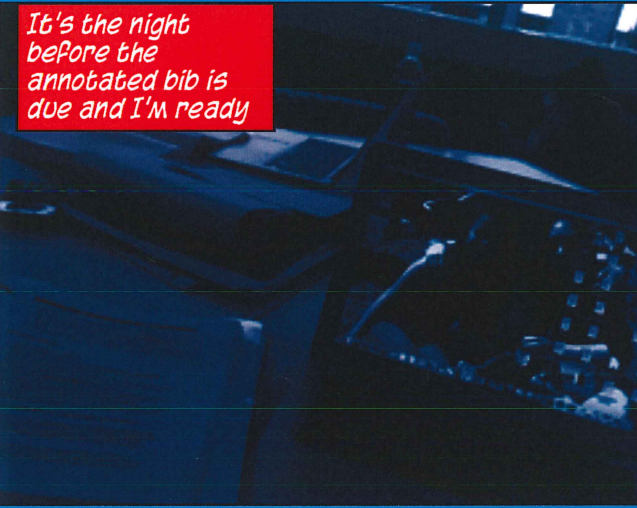

It'd probably be a good idea to figure that out.

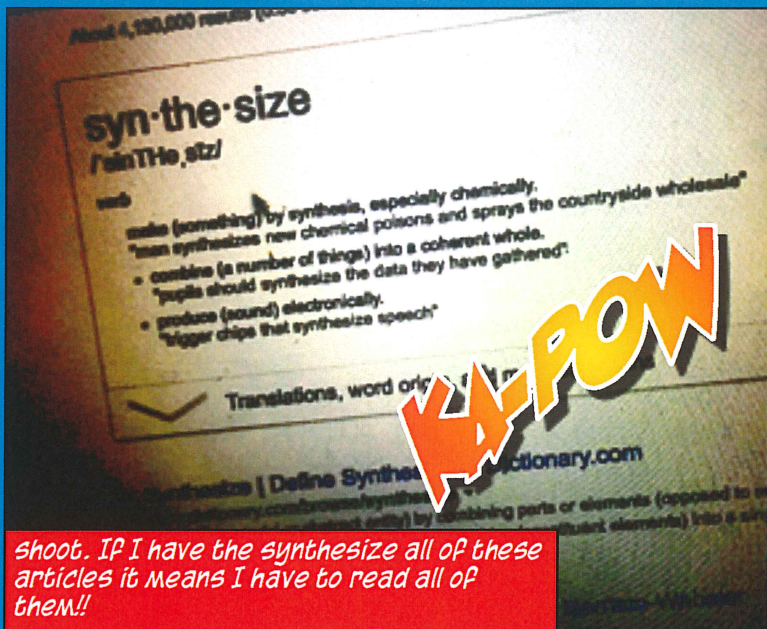

Bad idea

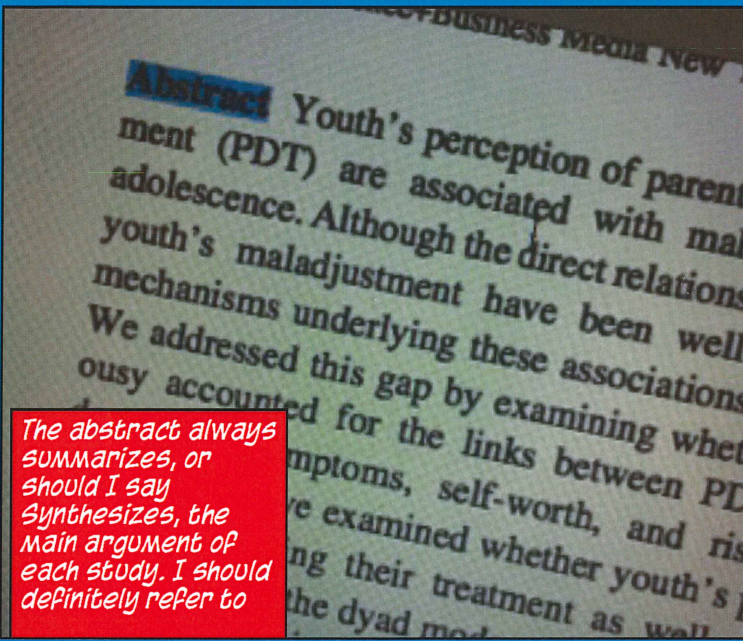

It's the night before the annotated bib is due and I'm ready

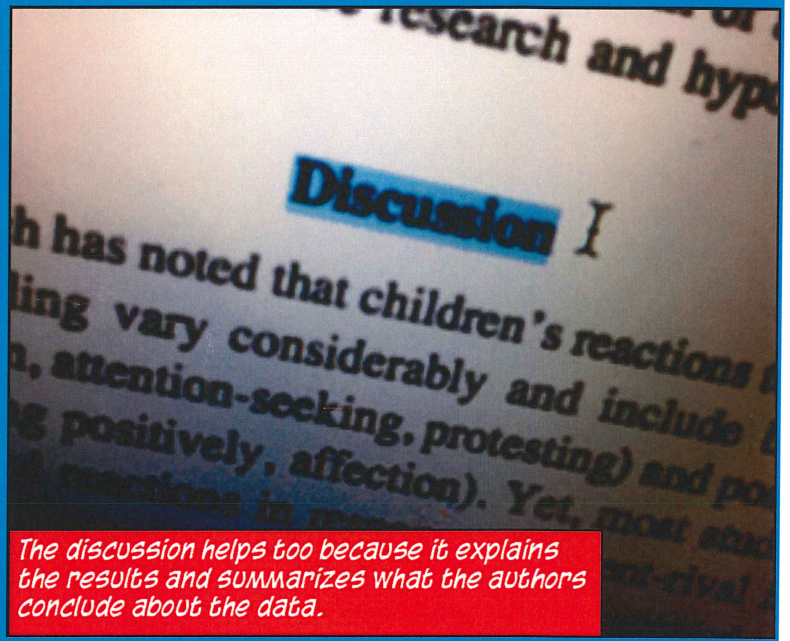

These articles are a LOT longer than I thought and I have to synthesize them too? What does that even mean?

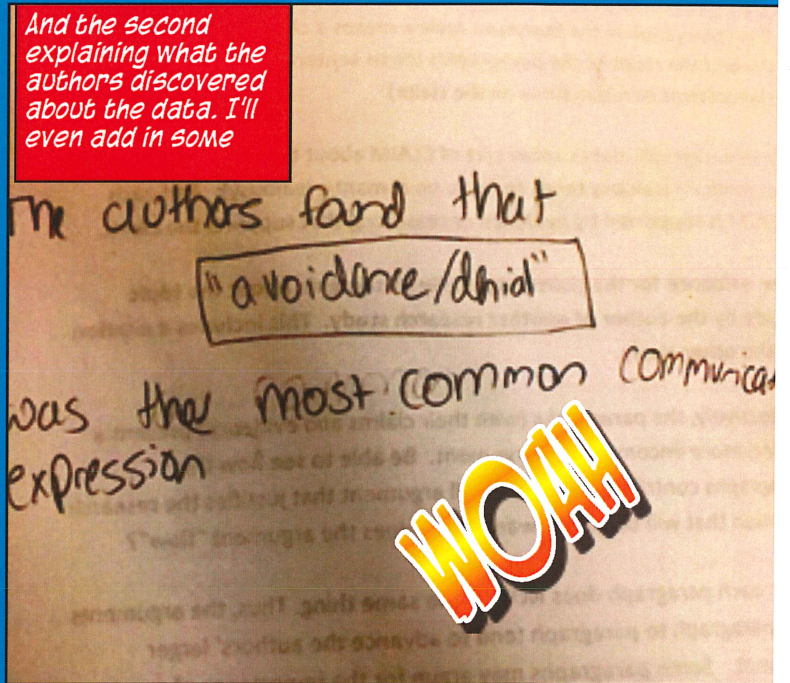

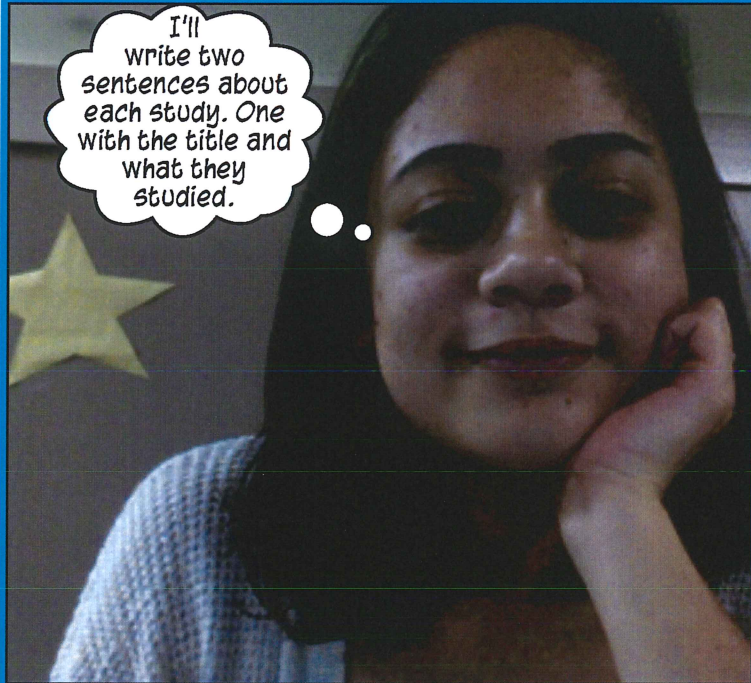

shoot. If I have the synthesize all of these articles it means I have to read all of them!!

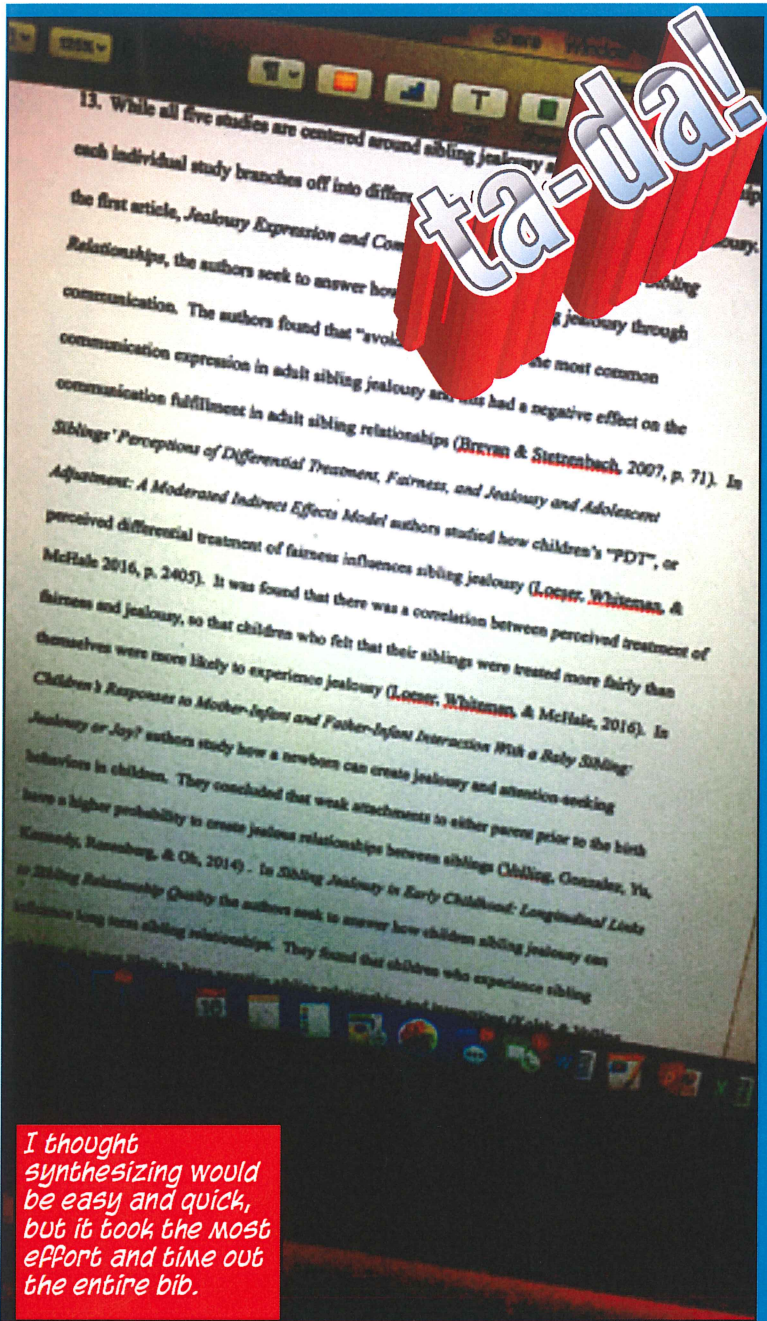

The abstract always summarizes, or should I say synthesizes, the main argument of each study. I should definitely refer to

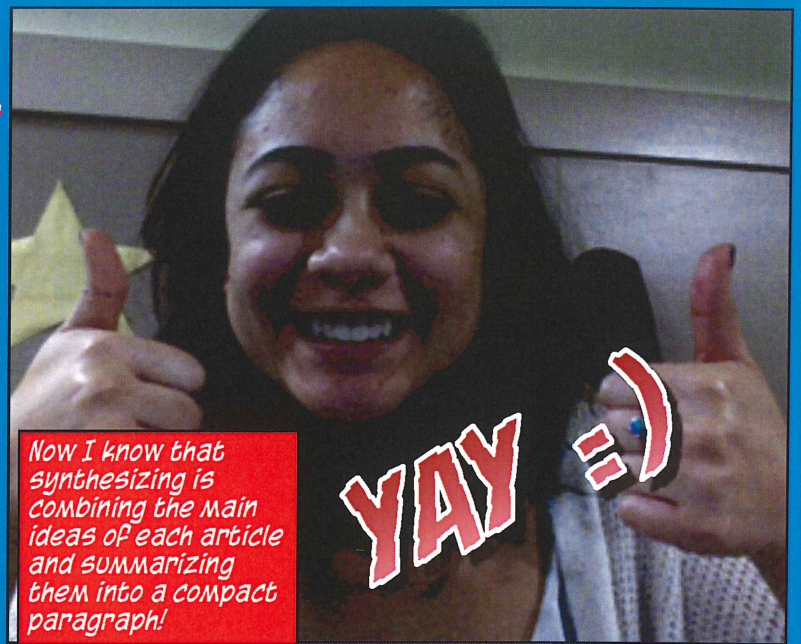

The discussion helps too because it explains the results and summarizes what the authors conclude about the data.

I thought synthesizing would be easy and quick, but it took the most effort and time out the entire bib.

Now I know that synthesizing is combining the main ideas of each article and summarizing them into a compact paragraph!
