APA Style

These OWL resources will help you learn how to use the American Psychological Association (APA) citation and format style. This section comes to you with an in-text citation and the References page, as well as APA sample papers, 7-10 presentations, and the APA classroom poster.

APA Overview and Workshop

This workshop provides an overview of APA (American Psychological Association) style and where to find help with different APA resources. It provides an annotated list of links to all of our APA materials and an APA overview. It is an excellent place to start to learn about APA format.

APA Formatting and Style Guide

APA (American Psychological Association) style is most commonly used to cite sources within the social sciences. This resource, revised according to the 6th edition, second printing of the APA manual, offers examples for the general format of APA research papers, in-text citations, endnotes/footnotes, and the reference page. For more information, please consult the Publication Manual of the American Psychological Association, (6th ed., 2nd printing).
