This Lesson 8: Green Space, Social Networks, and Crime is brought to you for free and open access by the Urban EcoLab at Digital Commons @ Loyola Marymount University and Loyola Law School. It has been accepted for inclusion in Module 05: Public Health & Water Quality by an authorized administrator of Digital Commons@Loyola Marymount University and Loyola Law School. For more information, please contact digitalcommons@lmu.edu.

Name: _____ Date: _____ Class/Period: _____

Lesson 8.2: How can you gather the most information?

Directions

1. Your goal is to find the answers to the questions in the table below as quickly as possible. Some of the questions only have one correct answer and others have multiple correct answers. Your answers need to come from places in the city.
2. You need to get the answers from at least 10 different people in the room. Underneath the answer, you need to write the person's name who gave it to you.
3. For your table, you cannot answer any of the questions yourself. For someone else, you cannot provide an answer unless you know the answer.
4. When your card is completely filled out, raise your hand and call out Bingo.
