Repository Citation

This Lesson 6: Planting Day is brought to you for free and open access by the Urban EcoLab at Digital Commons @ Loyola Marymount University and Loyola Law School. It has been accepted for inclusion in Module 10: Garden Ecology by an authorized administrator of Digital Commons@Loyola Marymount University and Loyola Law School. For more information, please contact digitalcommons@lmu.edu.
SAFETY GUIDELINES

For Lessons 5 & 6, the following Safety Guidelines should be reviewed with students, for safe handling of tools, and proper personal deportment when outside prepping the garden site for planting and then the following day on Planting Day:

• **DO ...**
  - Make sure you have all your materials
  - Stay with your group
  - Keep quiet voice level
  - Be responsible and respectful of the tools, plants, soil, site and any organisms you may encounter
  - Handle tools safely – keep sharp edges pointed down at all times, especially when moving tools from one area to another, such as staging to garden and back
  - Dispose of trash in the proper receptacles
  - Use proper personal safety at all times – no running
  - Ask questions if you are unsure about something
  - Enjoy working on our school garden!

• **DO NOT ...**
  - Do not eat anything from plants or from the school garden site
    *Eating some plants could cause an allergic reaction, which is a safety issue.*
