

Project Schedule

Period One: Study Set Up in Los Angeles, CA

April 26- Photoshoot for Study Images (2 hours)

April 26- Editing Study Images (3 hours)

April 27- Questionnaire Design (3 hours)

April 28- LMU results collection (6 hours)

Flight to Perth from LAX, Saturday July 28

Period Two: Interview and Data Collection in Perth, Australia

6 hour Days (3 Hours interview, 3 hours Data collection)

Dates: August 23, September 13, September 27, October 11, October 25

Period Three: Data Compilation and Coding in Perth, Australia

6 Hour Days

December 2, 3

Period Four: Results Processing and Analysis in Perth, Australia

6 Hour Days

December 4, 5, & 6

Project Budget

Item	Cost	Total
One Way Plane Ticket*	LAX > MEL > PER = \$750	750
Time Compensation: Schedule Item 1- Pre-Trip Work	14 hours x \$12 LMU research wage rate = \$168	168
Time Compensation: Schedule Item 2- Interviews and Data Collection	30 hours x \$12 LMU research wage rate = \$360	360
Time Compensation: Schedule Item 3- Data Compilation and Coding	12 hours x \$12 LMU research wage rate = \$216	144
Time Compensation: Schedule Item 4- Results Processing and Organizing	18 hours x \$12 LMU research wage rate = \$288	216
Microphone	29.95 from Amazon	29.95
TOTAL PROJECTED EXPENSES:		\$1,667.95 USD

*Because this research will be conducted when I study abroad, I understand the difficulty in calculating related travel costs. I have chosen a one-way plane ticket to represent a portion of my total travel costs. This would simplify purchasing so that Honors would not have to individually split all of my travel expenses, but account for one solid expense. Since I will be conducting the research at Curtin University, I will be getting there using my monthly transit pass, for which I will be paying \$620.94 over the 4 months. I will also be paying for all of my accommodation (~\$7000), and for my plane ticket home (\$750). I specifically selected this study abroad program with the intent to continue my research in this field, and hope that this method represents a fair way to account for a portion of the travel costs.
